FOR IMMEDIATE RELEASE

Annual ICT Summit 2023: Exploring Cloud Usage and Digital Infrastructure 2.0

The Annual ICT Summit, one of the technology industry's most anticipated events, is set to take place from 21-23 November 2023. This year's summit will delve into the future of technology with the theme "Cloud Usage and Digital Infrastructure 2.0," promising insightful discussions, groundbreaking innovations and unparalleled networking opportunities.

The ICT Summit, which is back for the 17th time, has consistently served as a platform for industry leaders, innovators, policymakers and technology enthusiasts to come together, exchange ideas and shape the future of the Information and Communication Technology (ICT) sector. With this year's theme, the summit aims to explore the latest trends and advancements in cloud technology and digital infrastructure.

Key Highlights:

Influential Speakers: The summit will host a plethora of industry leaders and policy makers who will share their expertise and visions all while guiding attendees through the complex landscape of ICT and include: EC Premier - Hon. Oscar Mabuyane, Former UCT Vice Chancellor - Prof. Mamokgethi Phakeng, Director- General at Dept. of Communications and Digital Technologies - Ms. Nonkqubela Thathakahle Jordan-Dyani, Board Chairperson SITA - Mr. Kiruben Pillay, amongst them are directors from international organizations such as Microsoft.

Cutting-Edge Insights: The summit will feature keynote presentations, panel discussions and masterclasses led by renowned experts, providing attendees with in-depth knowledge on the latest cloud innovations and the evolution of digital infrastructure.

Networking Opportunities: Attendees can connect with thought leaders, startups, investors and professionals in the ICT field - fostering valuable partnerships and collaborations.

Tech Showcase: A dedicated exhibition area will showcase cutting-edge technologies and solutions from leading companies, offering a glimpse into the future of ICT.

Interactive Masterclasses: Hands-on masterclasses will provide attendees with practical skills and insights into cloud implementation and digital infrastructure management.

Embracing Digital Infrastructure for Creative Excellence

We recognize the pivotal role of digital infrastructure in elevating the creative process and this year, we have added a special element to the summit that focuses on how digital infrastructure contributes to the success of creatives in the entertainment industry which will include a masterclass on Sound Production and Performance that is a highlight and will explore cutting-edge technologies, techniques and trends that are revolutionizing the music industry. This masterclass will be led by industry experts and will provide valuable insights for aspiring musicians, producers, and sound engineers.

We are thrilled to feature outstanding local talent at the summit who will share their journeys and offer a unique perspective on how digital infrastructure has played a pivotal role in their success. We will also have live performances from award-winning musician Betusile Mcinga, along with other acclaimed artists and DJs.

"The Annual ICT Summit has always been a catalyst for innovation in the technology sector. This year's theme, 'Cloud Usage and Digital Infrastructure 2.0,' aligns perfectly with the evolving needs of our industry. We look forward to engaging discussions and the opportunity to shape the future together." - Motse Mfuleni, chairman of Imbizo Events

The Annual ICT Summit 2023 is a must-attend event for anyone involved in the ICT sector, from seasoned professionals to startups looking to make their mark. Don't miss the chance to be a part of this transformative experience.
